## Chapter 2

### Aims and objectives

<sup>20</sup> The aims can be given in a list, notice that if you are not sure how the list should look then you can just put '1.' at the start of each line:

1. aim 1
2. aim 2
3. aim 3

<sup>25</sup> The research questions were in turn addressed by completing the following objectives:

1. objective 1, which is completed in Chapter 1.
2. objective 2, which is completed in Chapter 4.
3. objective 3, which is completed in Chapter 5.

## 30 2.1 Ethics

Hello, here is some text without a meaning. This text should show what a printed text will look like at this place. If you read this text, you will get no information. Really? Is there no information? Is there a difference between this text and some nonsense like “Huardest gefburn”? Kjift – not at all! A blind text like this gives  
35 you information about the selected font, how the letters are written and an impression of the look. This text should contain all letters of the alphabet and it should be written in of the original language. There is no need for special content, but the length of words should match the language.

## 2.2 Outline of thesis

40 An outline of the structure of the thesis is shown below.

Chapter 3 presents the methods that I used. Chapters 4, 5, and 6 present the results.

The content of the chapters is shown in Table 2.1
